**Map Data Dictionary**

Variable	Level of Layer	Year of Data	Data Source	Variable Name from Source Dataset	Variable Description from Source Dataset
Percent of Households Below the Poverty Line	Census tract and county	2014-2018 five-year estimates	<a href="#">ACS</a>	b17001e1	Total: population for whom poverty status is determined.
				b17001e2	Population whom income in the past 12 months below poverty level.
Percent of Cost Burdened Renter Households	Census tract and county	2014-2018 five-year estimates	ACS	Sum of b25070e7, 8, 9, and 10	Renter households paying more than 30% gross income towards rent.
				B25070e1	Renter households where gross rent as a percentage of household income was calculated.
Median Housing Value	Census Tract	2014-2018 five-year estimates	ACS	B25077e1	Median value of owner-occupied housing units
Gross Median Rent	Census tract and county	2014-2018 five-year estimates	ACS	b25064e1	Median gross rent.
Median Household Income	Census tract and county	2014-2018 five-year estimates	ACS	B19013e1	Median household income.
Percent of Households Earning Below 30% of the Area Median Income	County	2012-2016 five-year estimates	CHAS	T7_est134	Renter occupied and household income is less than or equal to 30% of Household Area Median Family Income.
				T7_est133	Renter occupied housing units.
Qualified Census Tracts	Census tract	2020	<a href="#">Qualified Census Tracts</a>		A census tract which at least 50% of households earn income less than 60% of the Area Median Income. Properties in QCTs receive a 130% adjustment on their qualified basis for Low Income Housing Tax Credit.

Variable	Level of Layer	Year of Data	Data Source	Variable Name from Source Dataset	Variable Description from Source Dataset
Difficult to Develop Area (DDA)	Multiple	2020	<a href="#">HUD Difficult to Develop Areas</a>		Regions with high construction, land, and utility costs relative to its area median gross income. Properties in these areas are eligible for a 30% boost in the LIHTC eligible basis.
Low Poverty Index <sup>3</sup>	Census tract	2009-2013	<a href="#">Low Poverty Index Map Service</a>	Low Poverty Index	This index is determined using family poverty rates and public assistance receipt. The higher the score, the less impoverished the neighborhood is <sup>2</sup> .
Low to Moderate Income Areas	Block group and census tract	2010-2014	<a href="#">HUD Low to Moderate Income Areas</a>		Areas where at least 51% of households have incomes at or below 80% of the area median income. Not less than 70% of Community Development Block Grant funds can be used for projects outside of these areas.
School Proficiency Index <sup>3</sup>	Block group	2013-2014	<a href="#">HUD School Proficiency Map Service</a>	School Proficiency Index	This index uses school-level data on the performance of 4th grade students on state exams to describe which neighborhoods have high-performing elementary schools nearby. The higher the score, the higher the school system quality is in a neighborhood <sup>2</sup> .
Jobs Proximity Index <sup>3</sup>	Block group	2014	<a href="#">HUD Jobs Proximity Index Map Service</a>	Job Proximity Index	This index demonstrates the accessibility of a neighborhood as a function of its distance to all job locations within a CBSA, with distance to larger employment centers weighted more heavily. The higher the index score, the better access that neighborhood has to employment opportunities <sup>2</sup> .
Low Transportation Cost Index <sup>3</sup>	Census tract	2008-2012 (five year estimates)	<a href="#">HUD Low Transportation Cost Index</a>	Low Transportation Cost Index	This index is based on estimates of transportation costs for a 3-person single-parent family with income at 50% of the median income for renters for the region. The higher the index, the lower the cost of transportation in that neighborhood <sup>2</sup> .

<b>Variable</b>	<b>Level of Layer</b>	<b>Year of Data</b>	<b>Data Source</b>	<b>Variable Name from Source Dataset</b>	<b>Variable Description from Source Dataset</b>
Assisted Properties Target Tenant Type <sup>3</sup>	Property	2020	NHPD		Point locations of properties by target tenant type. Target population is available for properties receiving tax credits, Section 8 Project Based Rental Assistance, and Section 515, 514, and 202 Direct Loans.
Assisted Properties Expiring in Next Five Years <sup>3</sup>	Property	2020	NHPD		Point locations of properties with a latest subsidy end date before 2020.
Public Housing Properties <sup>3</sup>	Property	2020	NHPD		Point location of buildings funded by public housing subsidies.
Section 8 Properties <sup>3</sup>	Property	2020	NHPD		Point location of properties funded by Section 8 Project Based Rental Assistance.
USDA Assisted Properties <sup>3</sup>	Property	2020	NHPD		Point location of properties funded by USDA subsidies, including Section 515, 514, and 538 Direct Loans.
LIHTC Properties <sup>3</sup>	Property	2020	NHPD		Point location of properties funded by tax credits.
Properties Assisted by Other Programs <sup>3</sup>	Property	2020	NHPD		Point location of properties funded by other subsidies, which include HOME, Section 202 Direct Loans, and State Section 236.

Variable	Level of Layer	Year of Data	Data Source	Variable Name from Source Dataset	Variable Description from Source Dataset
Percent of Assisted Residents that are Disabled <sup>3</sup>	Property	2019	NHPD and Picture of Subsidized Households	pct_disabled_a II	Percent of residents that are disabled by property. Resident information is available for public housing and properties funded by Section 8 Project Based Rental Assistance and Section 236.
Percent of Assisted Households that are Headed by a Minority <sup>3</sup>	Property	2019	NHPD and Picture of Subsidized Households	pct_disabled_a II	Percent of households that are headed by minorities by property. Resident information is available for public housing and properties funded by Section 8 Project Based Rental Assistance and Section 236.
Percent of HCV Residents that are Disabled <sup>3</sup>	Census Tract	2019	Picture of Subsidized Households	pct_disabled_a II	Percent of Housing Choice Voucher (HCV) residents that are disabled.
Percent of HCV Households Headed by a Minority <sup>3</sup>	Census Tract	2019	Picture of Subsidized Households	pct_disabled_a II	Percent of Housing Choice Voucher (HCV) households that are headed by a minority.
Percent of Population that is a Racial Minority <sup>3</sup>	Census Tract	2014-2018 (five year estimates)	ACS	b02001e1	Total population
				Sum of B02001e2, 3, 4, 5, 6, 7, and 8	Sum of population that is Black, American Indian, Alaskan Native, Native Hawaiian, Pacific Islander, some other race alone, or two or more races.
Percent of Population that is Hispanic or Latino <sup>3</sup>	Census Tract	2014-2018 (five year estimates)	ACS	B03002e1	Total Population
				B03002e2	Total population that is not Hispanic or Latino
Fair Market Rent 2020	County Subdivision	2020	<a href="#">Fair Market Rents</a>	2br	Two bedroom Fair Market Rent (FMR)

Variable	Level of Layer	Year of Data	Data Source	Variable Name from Source Dataset	Variable Description from Source Dataset
Percent of Population that is a Racial or Ethnic Minority <sup>3</sup>	Census Tract	2014-2018 (five year estimates)	ACS	b02001e1	Total population
				B02001e2	White alone population
				B03002e3	White alone population that is not Hispanic or Latino
Percent of Population that is Disabled <sup>3</sup>	Census Tract	2014-2018 (five year estimates)	ACS	Sum of B18101e21 and 2	Sum of female and male civilian noninstitutionalized population
				Sum of B18101e4, 7, 10, 13, 16, 19, 23, 26, 29, 32, 35, and 38	Sum of male and female non-institutionalized population that is disabled.
Racial and Ethnic Concentration of Poverty 2000 <sup>3</sup>	Census Tract	2000	<a href="#">RECAP Tract Current and Historic</a>	RCAP_00	Census tracts designated as racial and ethnic concentrations of poverty in 2000
Racial and Ethnic Concentration of Poverty 2010 <sup>3</sup>	Census Tract	2010	<a href="#">RECAP Tract Current and Historic</a>	RCAP_10	Census tracts designated as racial and ethnic concentrations of poverty in 2010
HCV as a Percent of Renter Occupied Housing Units <sup>3</sup>	Census Tract	2019	<a href="#">Picture of Subsidized Households</a>	HCV_PCT_REN TER_OCC_UNIT S	Percent of renter occupied units occupied by a householder with a Housing Choice Voucher

Variable	Level of Layer	Year of Data	Data Source	Variable Name from Source Dataset	Variable Description from Source Dataset
Qualified Opportunity Zone	Census tract	2019	<a href="#">Department of the Treasury</a>	Census Tract Number	Census tracts designated as qualified opportunity zones.
Percent of Households with at Least One Vehicle	Block group	2014-2018	ACS	PCT_A00	Zero car households as a percent of all households.
Census tract Within a One Mile of Grocery Store or 10 Miles in a Rural Area	Census tract	2015	<a href="#">USDA Food Desert Database</a>	LA1and10	Census tract is within half mile of grocery store or 10 miles in rural areas
Cancer Risk Percentile	Block group	2014	<a href="#">Environmental Justice Screening Database</a>	P_CANCER	NATA cancer risk percentile. Higher values mean higher risk.
Respiratory Hazard Risk Percentile	Block group	2014	<a href="#">Environmental Justice Screening Database</a>	P_RESP	NATA respiratory hazard index. Higher values mean higher risk.
Superfund Proximity Percentile	Block group	2019	<a href="#">Environmental Justice Screening Database</a>	P_PNPL	Superfund proximity percentile. Higher values mean higher exposure.
Percent of Population that is Black	Census tract	2014-2018	ACS	B02001e3	Black or African American alone
				b02001e1	Total population
Percent of Population that is Asian	Census tract	2014-2018	ACS	B02001e5	Asian alone
				b02001e1	Total population

Variable	Level of Layer	Year of Data	Data Source	Variable Name from Source Dataset	Variable Description from Source Dataset
Percent of Population that is an Other Minority	Census tract	2014-2018	ACS	B02001e4, 6, 7, 8	American Indian and Alaskan native alone, native Hawaiian and other pacific islander alone, some other race alone, and two or more races.
				b02001e1	Total population
Environmental Hazard Index	Census tract	2011	<a href="#">HUD's Environmental Hazard Index</a>	Haz_idx	This index uses National Air Toxic Assessment data on the air quality carcinogenic, respiratory, and neurological hazards within a census tract. The higher the score, the lower the environmental hazard is in a neighborhood <sup>2</sup> .
Percent of Workers Earning \$1,250 Per Month or Less (Home Location)	Block group	2010	<a href="#">EPA Smart Locations Database</a>	R_PctLowWage	Percent of workers earning low wage out of all workers in the census tract (based on their home location)
Number of Jobs Within 45 Minute Drive	Block group	2010	<a href="#">EPA Smart Locations Database</a>	D5ar	Jobs within 45 minutes auto travel time, time decay (network travel time) weighted
Overall Opportunity Rank	Census tract	2017	<a href="#">Strategies for Investing in Opportunity</a>	Overall_opportunity_final	Overall opportunity rank (quintile) relative to CBSA. Higher ranks mean that the census tract has higher opportunity. This factors in the labor market access, school quality, transit access, and health outlook ranks.
Labor Market Access Rank	Census tract	2017	<a href="#">Strategies for Investing in Opportunity</a>	Labor_market_access_final	Labor market access rank (quintile) relative to CBSA. Higher ranks mean that the census tract has better access to jobs. Indicators signifying 'labor market access' include the number of workers employed close to home (within a 30 minute commute); the number of available jobs per person; the unemployment rate; the number of people over 16 who are employed; and the percent of people with a high school degree or higher.

Variable	Level of Layer	Year of Data	Data Source	Variable Name from Source Dataset	Variable Description from Source Dataset
School Quality Rank	Census tract	2017	<a href="#">Strategies for Investing in Opportunity</a>	School_quality_final	School quality rank (quintile) relative to CBSA. Higher ranks mean that the census tract has better school quality and access. Indicators signifying 'school quality' include local 4th grade reading and math test scores; the student-teacher ratio of the nearest school; local high schoolers preparing for college, measured by the percent of 11th and 12th graders who took the ACT or SAT; and the availability of early education programs, measured by the percent of 3-4 year olds enrolled in school.
Transit Access Rank	Census tract	2017	<a href="#">Strategies for Investing in Opportunity</a>	Transit_access_final	Transit access rank (quintile) relative to CBSA. Higher ranks mean that the census tract has better transit access. Indicators signifying 'transit access' include the percent of workers commuting via public transportation; the average time people travel to work; access to a vehicle; and a measure of how centrally located the neighborhood is in the larger area.
Health Outlook Rank	Census tract	2017	<a href="#">Strategies for Investing in Opportunity</a>	Health_outlook_final	Health outlook rank (quintile) relative to CBSA. Higher ranks mean that the census tract has better health outlook. Indicators signifying 'health outlook' include a measure of the risk of developing cancer; a measure of how close a neighborhood may be to nutritious food options; a measure of the risk of toxins, like lead, in the home; the distance to an industrial site mandated to create a risk management plan by the Environmental Protection Agency (EPA); and an indicator of potential access to health care, measured by the number of doctors per person.

---

Variable	Level of Layer	Year of Data	Data Source	Variable Name from Source Dataset	Variable Description from Source Dataset
Investment Pathway	Census tract	2017	<a href="#">Strategies for Investing in Opportunity</a>	Investment_pathway	These investment strategies represent possible pathways for investing in opportunity based on the trends in the distribution of the distribution of the affordable housing portfolio. These investment pathways are guided by the level of opportunity, neighborhood quality, and trajectory of a neighborhood. Outcomes include the preservation of assisted properties, bringing opportunity to places, and the expansion of assisted housing options. To learn more about these investment pathways, visit the <a href="#">Strategies for Investing in Opportunity Report</a> .

### Data Notes

1. All values in the Data Dashboard are made by summing up the values for each census tract within it. For example, the population of New Haven County is determined by summing up the population of all of the census tracts within New Haven County. Generating estimates for larger areas by adding up estimates for smaller areas within it results in discrepancies for datasets which less precise estimation techniques are used. For instance, CHAS data used in the Data Dashboard is rounded using the following rounding scheme: 0 remains 0; 1-7 rounds to 4; 8 or greater rounds to the nearest multiple of 5. Since HUD prepares individual CHAS estimates for each level of geography to reduce these discrepancies, the values retrieved by the Data Dashboard of the Community Reporting Tool and HUD's CHAS query tool would slightly vary slightly even though they are pulling from the same data source. Estimates for each variable from CHAS in the Community Reporting Tool varies less than +/-5% for at least 93% of all counties. If you would like more information, please contact Keely Stater at [kstater@housingcenter.com](mailto:kstater@housingcenter.com) or Kelly McElwain at [kmcelwain@housingcenter.com](mailto:kmcelwain@housingcenter.com). The CHAS data issues are discussed further in [HUD's CHAS data documentation](#).
2. For more detail about how the values in this map layer are determined, refer to the map service description for each data source.
3. These map layers are only visible when zoomed in beyond the state level.
4. These variables are not available when using the radius tool.
